Secretary's Motions

Motion SEC-A — LADWP Neighborhood Council Representative: The Board of the Studio City Neighborhood Council (SCNC) designates Secretary Jay Friedman as SCNC's representative and liaison to the Los Angeles Department of Water and Power (LADWP) under the [2023 LADWP–Neighborhood Council Memorandum of Understanding \(MOU\)](#). The Board authorizes Jay to register as SCNC's representative, provide appropriate SCNC contact information to LADWP, participate in MOU meetings, communicate stakeholder questions, and report relevant information to the Board. To the extent SCNC has not already joined the 2023 MOU, the Board also approves SCNC participation. This designation does not authorize expenditure of SCNC funds or adoption of policy positions without separate Board action.

Motion SEC-B — Replacement Mixer-to-Speaker Audio Cables: The Board of the Studio City Neighborhood Council (SCNC) approves an expenditure not to exceed \$125, including applicable sales tax and shipping, for the purchase of two (2) 50-foot, shielded balanced audio cables with the appropriate XLR and ¼-inch TRS connectors, to provide direct, uninterrupted connections between the audio mixer and speakers at Radford Studio Center. The purchase is subject to confirmation of the correct connector configuration, identification of an available budget line, and compliance with SCNC purchasing procedures.

Supporting documentation: [SEC-B cable price comparison \(PDF\)](#)

Motion SEC-C — Identification badges with lanyards: The Board of the Studio City Neighborhood Council approves an expenditure not to exceed \$145.09, including tax, to Anderson Trophy Co. for eight (8) double-sided identification badges with lanyards.

Motion PSH - A: The Board of the Studio City Neighborhood Council (SCNC) supports Council File 24-0196-S1: Title, Nuisance Abatement and Oversight / Request for Reports of Policy Options and Code Amendments. A City Council motion was introduced and passed in 2024 that dealt with making improvements to the nuisance abatement program. On April 17, 2024, the SCNC passed a motion of support for this measure because "nuisance abatement and code enforcement mechanisms" are "inefficiently implemented and overly bureaucratic." A recent case study of inefficiency was the abandoned Babcock Ave. property in Studio City that became a haven for squatters and illegal activity that plagued the local residents. The Babcock Ave. nuisance was only abated after extensive media coverage forced CD4 and the Mayor's office to do so.

This update to the original motion calls for a release of all pending reports for this Council File by the CLA and City Attorney's office, and asks that any reports include recommendations pertaining to the following:

- A process to issue nuisance abatement orders for property owners who are willing, but unable to perform work on nuisance properties;

- The feasibility of increasing fines, fees, or penalties related to failure to comply with a Notice to Comply (NTC); and
- The potential for changes in State law to better support enforcement of current and future nuisance abatement proceedings.

This report back is needed so that the community does not suffer from another longstanding community nuisance.

This motion is also to be submitted as a Community Impact Statement (CIS) to Council File 24-0196-S1.

Motion GAC-B — Detached ADU Interim Control Ordinance (CF 16-1468-S6): The Board of the Studio City Neighborhood Council (SCNC) supports Council File 16-1468-S6 to instruct the Planning Department, in consultation with the City Attorney, to prepare and process an Interim Control Ordinance (ICO) to temporarily prohibit the issuance of any building permits for detached accessory dwelling units on multifamily developments that exceed 1200 square feet and include an Urgency Clause, making it effective upon publication. The ICO shall run for 45 days, with a 10 month and 15 days extension by Council Resolution, and can be further extended for an additional 1 year, or until the adoption of the appropriate land use regulatory controls have been prepared by the Planning Department, adopted by the Council and become effective, whichever occurs first.

Upon receipt of the report back with the Interim Control Ordinance (ICO), the SCNC requests holding off agendizing the ICO to the designated City Council Committee(s) and the full City Council for votes for at least 4 weeks to allow this NC and other NC's to review and submit comments based on the ICO.

Motion TC-B — NoHo2BUR Connect airport transit proposal (CF 26-1428): The Board of the Studio City Neighborhood Council (SCNC) supports Council File 26-1428 to direct the Los Angeles Department of Transportation (LADOT) to report back with recommendations to reconfigure the NoHo DASH line as NoHo2BUR Connect, a direct transit connection between the North Hollywood Metro Station and the Hollywood Burbank Airport, redeploying the line's existing vehicles and service hours, including:

- Alignment and stop options developed at LADOT's discretion, with estimated travel times compared against existing transit, rideshare, and driving;
- How the service would use the new terminal's transit facilities and connect with Airport Authority shuttles, BurbankBus, Metro, Metrolink, and planned high-speed rail without duplicating existing service;
- Service span and frequency options suited to air travel, including weekend service;
- Operating costs relative to the current NoHo DASH budget, any additional resources needed, and confirmation of Local Return eligibility for service outside City limits; and
- Accommodation of the service in the planned North Hollywood Station transit center.

Upon receipt of the report back, the SCNC requests holding off agendaizing the report back to the designated City Council Committee(s) and the full City Council for votes for at least 4 weeks to allow this NC and other NC's to review and submit comments based on the report back.

This motion is also to be submitted as a Community Impact Statement (CIS) to Council File 26-1428.

Motion S&B-A — LA River Greenway (revised; [Council File 26-1471](#); proposed CIS): The Board of the Studio City Neighborhood Council (SCNC) supports Council File 26-1471 LA River Greenway Studio City Habitat Restoration, Beautification and Safety Project / Melanie Winter LA RiverWay. We enthusiastically support the continued build out of the LA River Greenway throughout Studio City. Studio City is uniquely situated with the LA River running through the historic business Village along Ventura Boulevard. New residential and business development continues alongside sections of Ventura east and west of the Village area. These developments are close to the LA River and will benefit from the planned build out. This also promises to be a

regional amenity, drawing pedestrians and bicyclists from throughout the region. Lastly, a completed bicycle and pedestrian corridor along the river will allow a multimodal, alternative commuting route that connects with rail and bus lines.

Supporting Information and Document:

Source documents: [Revised LA River Greenway motion](#) | [Melanie Winter obituary \(LA Times\)](#)

The Studio City Neighborhood Council supports Councilmember Raman's (CD4) motion to supplement the existing Bureau of Engineering work underway on Segment 8 of the LA Riverway by renovating the existing Studio City LA River Greenway from Whitsett Avenue to Laurel Canyon on the south bank of the River. This program requires the LA City Council to approve a capital project by Recreation and Parks and we urge that project to move forward urgently. We applaud the imminent new solar lighting on this stretch of the River and encourage a comprehensive approach that finally realizes the thoughtful design of this site, which boasted very forward-thinking integration with the surrounding business and residential communities at the time of its installation in 2008. Additionally, we support the recommendation that Recreation and Parks accept the \$250,000 in Federal Community Project Funding for the LA River Greenway Studio City Habitat Restoration, Beautification, and Safety Project.

Further, we support the naming of the LA River Greenway between Whitsett Avenue and Laurel Canyon the "Melanie Winter Studio City LA River Greenway" in honor of her leadership in environmental and sustainability issues, and the work of her Studio City based nonprofit The River Project.

In addition, we request the following. An opportunity for the SCNC, other community organizations, and the general public to view and provide comment and input regarding the plans. The opening of the greenway to Ventura Blvd. via the existing but locked access points behind City Lot 690 and the steps to the shopping center parking lot. Dedicated no public camping enforcement. Utilization of Quimby or other funds to fill any funding gaps. Removal of all invasive species including Tree Of Heaven and Palms. This motion to be submitted as a supporting RFA and then submitted as a CIS when the council file is available. This motion is to be submitted as a Community Impact Statement (CIS) to council file 26-1471 (CFMS)

Motion S&B-B — LA River Right of Entry: The Studio City Neighborhood Council is enthusiastically supportive of enhanced public open space alongside the Los Angeles River throughout the borders of Studio City. To supplement the existing work by MRCA, Tree People, Recreation and Park and other governmental and NGO entities, we are planning a series of volunteer work days along the Los Angeles River in the area on the south end of the River between Whitsett Avenue and Laurel Canyon.

The SCNC Sustainability and Beautification Committee requests a Right of Entry pass from CD4 to allow this event series free passage onto the work area. The scope of work will include trash cleanup, removal of invasive species, pruning of deadwood and general preparation for a full-scale landscaping refresh.

Motion S&B-C — Ventura Boulevard parcels for potential parkland: The Studio City Neighborhood Council is enthusiastically supportive of enhanced open space alongside the Los Angeles River throughout the borders of Studio City. We are looking for areas where SCNC action can supplement the efforts undertaken by all the relevant agencies. We have found an opportunity that requires urgent support and action from CD4 and others. Extensive renovation

is occurring on Ventura Boulevard, east of Colfax Avenue, on the north side of Ventura. A large "Elder Care" facility is being built on the western edge of the property, followed by the conversion of 11601 Ventura into a two-story medical office building. All of this is an upgrade from the string of uneven automotive resellers and body shops that have historically populated the region. Two sites remain: 11575 Ventura (currently an Enterprise Rent-A-Car lot) and 11571 (an undetermined business). The SCNC requests CD4 work with the SCNC to investigate purchase by the City or some other party either wholly or in collaboration, and conversion of these parcels to parkland. The unique positioning of these parcels allows access to the River Greenway from Ventura Boulevard and vice versa.

Motion S&B-D — Merrill Gardens Studio City Eldercare Development/Landscape Motion

Merrill Gardens Studio City at 11611 Ventura Boulevard has officially broken ground following an extended delay. The currently approved landscape plan for the project mandates the planting of 21 Chinese Pistache trees and Mexican Fan Palms as street trees pursuant to requirements stemming from the Ventura-Cahuenga Boulevard Specific Plan.

This legacy landscape regimen, established in 2002, has proven both ineffective and hazardous to the surrounding community:

- Chinese Pistache: Naturally develops a low canopy that obstructs pedestrian pathways, impedes vehicle sightlines, and creates safety hazards along high-visibility corridors.
- Mexican Fan Palms: Provide zero canopy shade, are invasive, and require costly, continuous maintenance. Unmaintained or falling palm fronds pose immediate physical danger to pedestrians and property below.
- Fire Hazard: Dry palm fronds and embers represent a significant fire threat during high-wind events. Downwind from this proposed planting site lie vulnerable, densely populated hillside residential neighborhoods. Under severe wind conditions, an ember-driven fire originating on Ventura Boulevard could rapidly spread across major ridgelines from Mulholland Drive to Sunset Boulevard.

Modern urban forestry practices prioritize native, drought-tolerant, and high-canopy shade trees that enhance fire resiliency, improve pedestrian safety, and contribute meaningfully to the urban canopy.

The Studio City Neighborhood Council (SCNC) requests Council District 4 (CD4) initiate immediate discussions with the project developer to revise the site's landscape plan palette, removing the requirement for Chinese Pistache and Mexican Fan Palms in favor of safer, high-canopy, fire-resilient street trees.

And the SCNC requests to be directly included as a stakeholder in these conversations with Council District 4 and the developer to help select a replacement tree palette that best serves the community's safety and environmental needs.
